

Alliance for Substance Abuse Prevention

Welcome to ASAP!

This informational packet was designed to familiarize you with the basics of ASAP, its members and its projects, as well as provide information on the science of prevention. I hope you find it to be helpful.

The ASAP Coalition is facilitated by a part time Project Director and part time Coalition Coordinator, paid for by the Trumbull County Mental Health and Recovery Board. The Trumbull County Mental Health and Recovery Board also allocates funding for ASAP activities each year, but most projects are -financed through donations and event sponsorships. The coalition is led by its members - People just like you.

The ASAP coalition has various subcommittees that develop based on the changing needs in our communities. Some of the current subcommittees are:

- Youth Engagement Subcommittee
- Education Subcommittee
- Information Subcommittee
- Anti-Stigma Subcommittee

The Coalition also has Planning Committees whose sole purpose is to organize ASAP events. Our typical yearly events include:

- the ASAP Drug Summit in the Spring
- the ASAP Track Meet in the Summer
- the ASAP Recovery Rally in the Fall

Subcommittee and planning meetings are open to all members. Meeting dates and times are announced at each meeting and printed in the meeting agenda. You can be added to a subcommittee or planning committee email list by expressing your interest to the Coalition Coordinator, or by completing the ASAP Membership form.

I appreciate you taking the time to join our Coalition's effort to build a community that is able to successfully manage its substance abuse problem today, while ensuring that future generations do not become impacted. Community problems require a community response.

If you have any questions, please do not hesitate to ask.

Sincerely,

Lauren Thorp
ASAP Project Director
11/10/21

Jill Lewis
ASAP Coalition Coordinator

ASAP Member Form at: <https://forms.gle/Vbr7921LBwMQBxy4A>

YOUTH

Youth volunteers have insight on the risk factors affecting their peers, and they can also liaison and be a representative to spread prevention messages with other youth. Coalition involvement is an opportunity to build leadership skills and influence change.

RELIGIOUS & FRATERNAL ORGANIZATIONS

Faith organizations involvement in coalitions improves the health and wellness of parishioners as well as the community. These organizations can share educational information through inserts in bulletins and newsletter messages.

MEDIA

Media partners are important partners in spreading public health media campaigns. Media partners help us to shape social norms and perceptions around what it looks and feels like to have healthy people, families, and communities.

PARENTS

An effective parent program strengthens communication between parents and children, supports parents who refuse to allow alcohol or other drugs at parties, provides information about sources of alcohol and drugs, and reinforces other parents who are trying to keep their children drug free.

LAW ENFORCEMENT

Law enforcement is on the frontlines, and sees the consequences caused by substance misuse. They have access to data, and can provide the coalition with arrest and overdose information pointing to the types of substances being used in the community

BUSINESS

Local employers are key to creating healthy communities. You can support coalition efforts by partnering with us to spread awareness messages with your employees and associates, host and/or sponsor events, join our meetings and let us know the concerns of local businesses.

Alliance for Substance Abuse Prevention

Local problems need local solutions. Coalitions, like ASAP, engage multiple sectors of the community to employ a variety of strategies to address local drug problems.

What is your role in the coalition?

SCHOOLS

Schools use many methods to help prevent substance abuse. Allowing students to sign pledges that they will not use drugs or alcohol, teaming up with law enforcement to get the message across, and establishing mentoring programs are all ways schools are using to prevent substance abuse.

YOUTH-SERVING ORGANIZATIONS

Youth service organizations provide support to coalitions by helping to promote social change. When youth give their time and talent to improve their communities, they learn important leadership skills, gain community voice, and develop a network of civic-minded peers.

HEALTHCARE PROFESSIONALS

Medical professionals have an important role to play drug abuse prevention. They can screen their adolescent patients for drug use, provide brief interventions, refer them to substance abuse treatment if necessary and provide ongoing monitoring and follow-up.

CIVIC & VOLUNTEER GROUPS

Civic groups address meaningful issues and provide some of the most important resources for their community. Civic groups are a perfect forum to start conversations about drug abuse and prevention.

STATE & LOCAL AGENCIES WITH EXPERTISE IN SUBSTANCE ABUSE

State and local government agencies can help coalition efforts by implementing evidence-based prevention and treatment policies and programs to reduce costs while improving health and wellness..

Risk and Protective Factors

Many factors influence a person's chance of developing a mental and/or substance use disorder. **Prevention** includes a wide range of activities — known as “interventions” — aimed at reducing risks or threats to health. Prevention activities focus on reducing risk factors, and strengthening protective factors, that are most closely related to the problem being addressed.

Risk factors are characteristics at the biological, psychological, family, community, or cultural level that precede and are associated with a higher likelihood of negative outcomes.

Protective factors are characteristics associated with a lower likelihood of negative outcomes or that reduce a risk factor's impact. Protective factors may be seen as positive countering events.

Individual-level risk factors may include a person's genetic predisposition to addiction or exposure to alcohol prenatally.

Individual-level protective factors might include positive self-image, self-control, or social

RISK FACTORS	PROTECTIVE FACTORS
<ul style="list-style-type: none">■ Chaotic home environment■ Ineffective parenting■ Little mutual attachment and nurturing■ Inappropriate, shy, or aggressive classroom behavior■ Academic failure■ Low academic aspirations■ Poor social coping skills■ Affiliations with deviant peers■ Perceived external approval of drug use (peer, family, community)■ Parental substance abuse or mental illness 	<ul style="list-style-type: none">■ Strong family bonds■ Parental engagement in child's life■ Clear parental expectations and consequences■ Academic success■ Strong bonds with pro-social institutions (school, community, church)■ Conventional norms about drugs and alcohol

“Looking For A Way Out”

*A Guide to Addiction Treatment
And Education Resources
In Trumbull County & the Surrounding Area*

This publication was produced by the Trumbull County Mental Health and Recovery Board and the Alliance for Substance Abuse Prevention (ASAP). This guide to resources in Trumbull County is for individuals seeking help with substance abuse and addiction. You may be looking for help yourself or for a friend or family member. We hope this information will open some doors to finding help. Addiction is a complex and crippling condition. The needs are many, but the number of places to turn is growing and changing. Please directly contact agencies listed in this guide for the most current information.

Please Note:

These listings are not intended as recommendation of specific agencies nor can this be considered a complete list of resources. It is an evolving field and we hope to be able to update this informational guide periodically.

IF YOU NEED HELP NOW FOR A DRUG CRISIS OR
MENTAL HEALTH ISSUE
24/7 CRISIS AND REFERRAL SERVICES

Coleman Access Center

Provides 24-hour services for individuals experiencing emotional crisis. Services include consultation and referral, support and emergency mental health and substance abuse assessments. Emergency assessments are available at the Coleman Access Center or the local hospital emergency department. Anybody looking for detox, regardless of ability to pay, should start here.

THE HUB FOR TREATMENT IN TRUMBULL COUNTY**Trumbull County Mental Health and Recovery Board**

The mission of the board is to improve the well-being of our community by establishing and maintaining an effective, efficient and quality system of alcohol, drug and mental health services in Trumbull County. The board supports recovery by providing funding to agencies for education, treatment, prevention and support services. The board collaborates with many agencies and coordinates needed services.

DRUG FREE COMMUNITY COALITION***Alliance for Substance Abuse Prevention (ASAP)***

ASAP is a community project of the Trumbull County Mental Health and Recovery Board. The coalition engages in strategic partnerships to solve our community's substance abuse problems. The ASAP coalition was originally organized as a response to the underage alcohol use problem in Trumbull County. The coalition served as the catalyst behind the countywide "Parents Who Host Lose The Most" campaign. As members of the coalition became aware of the opiate epidemic in our County, they decided to tackle the issue and the ASAP Opiate Task Force was formed. The Task Force meets monthly and focuses on education, addressing high rates of drug related crimes, providing community education, and leading community wide change. Call for information on how to get involved. Or "Like" the Alliance for Substance Abuse Prevention (ASAP) on Facebook.

WALK-IN HOURS

Many times, the desire to stop drinking, or using drugs, comes on suddenly and requires immediate attention. There are a number of agencies in Trumbull County that offer drug and alcohol assessments without an appointment. During a drug and alcohol assessment, questions will be asked to determine whether or not a person has a drug or alcohol problem. The findings of the assessment will be used to connect the individual with the most appropriate level of treatment. Assessments are provided on a first come, first served basis at the following agencies:

Coleman Health Services

OVERDOSE EDUCATION AND NALOXONE DISTRIBUTION

Project DAWN of Trumbull County is a completely free community-based drug overdose education and Naloxone distribution program. ***Naloxone is used to reverse opiate overdoses. There is no cost to receive a Project DAWN kit.*** Participants receive education on recognizing the signs and symptoms of an overdose, distinguishing between different types of overdoses, performing rescue breathing, calling emergency medical services, and administering intranasal Naloxone. All participants receive 2 vials of Naloxone in a Project DAWN kit.

Project DAWN Naloxone kits are now available as a free mail order program if you are a resident of Trumbull County. You can click the link below: you will be required to watch the training video, verify that you watched it, complete a questionnaire, and provide your address and contact information so that a kit can be mailed to you. If you have any questions, please call the health dept. at 330-675-2489. Click here for the video: <https://www.surveymonkey.com/r/2MCWKBD>

RESIDENTIAL TREATMENT (REHAB)

When people think of drug treatment or “rehab,” they often think of residential treatment. The patient is required to live at the facility for perhaps 1-3 months, or sometimes longer. Without outside distractions, the individual is free to concentrate more fully on recovery. Access to an inpatient program can depend on insurance coverage, or the ability to pay. Some programs are publicly funded but admission may be based on referral from other agencies and waiting lists are often long. Unfortunately, the need for these services is far greater than their availability. Because waiting lists may be long, outpatient counseling or some other supportive plan is advisable while waiting.

Warren, OH 44484

(330) 306-5191 or SaharaClub2@gmail.com

Recovery Coaches

A Recovery Coach, is a person who links the newly recovering person to the recovering community, and serves as a personal guide and mentor. Coaches are not therapists and do not offer counseling, therapy or any other clinical services. They are peers who assist people on the path from a life of addiction to a life in recovery. Coaches have personal experience in navigating this path. They help individuals in recovery address areas of their lives that have been negatively impacted by addiction, including housing, education and employment.

Solace of the Valley

Solace members seek to end the crisis of drug addiction in their communities. We provide support to individuals and families affected by addiction, advocating for policy changes and mobilizing other communities to enact their own changes. Solace is an action group, not a recovery group. Solace members are encouraged to be visible in the war on addiction, working within the legal boundaries to enact positive changes to the current climate of laws and penalties to diminish the effects of addiction on our loved ones.

www.SolaceoftheValley.org

Trumbull County Strong

A local group of advocates whose mission is to provide assistance to loved ones of those suffering with mental illness and substance use disorder (addiction).

SPECIAL POPULATIONS

Every addict has their own unique story and every addict has something in common with other addicts. There are certain populations that may benefit from specialized treatment and there are agencies and programs designed to serve them in unique ways. This is not an exclusive list of agencies offering specialized support. Included are some of those emphasizing service to these groups.

ADOLESCENTS

Compass Family & Community Services

Family Court Treatment Services are designed to educate teens with first-time non-violent drug and alcohol offenses as a diversion from Juvenile Court.

TREATMENT FOR LICENSED PROFESSIONALS

Addiction is a disease that affects all people and does not discriminate by race, class or profession. Addiction is particularly destructive for skilled and licensed professionals due to the demands and expectations of their work.

Glenbeigh Rock Creek

The consequences of addiction experienced by professionals are a primary focus of this specialty group. Patients work on developing a healthy recovery program within their professional role and address the requirements mandated by their respective licensure and monitoring boards. Glenbeigh is an approved provider with most professional boards.

TOBACCO CESSATION TREATMENT

Mercy Health- New Start Treatment Center for Chemical Dependency

Those seeking help for substance use disorders smoke cigarettes or use tobacco products at a rate that is 3-4 times the average population. Programs at St Joseph Hospital Warren/New Start Treatment Center & the Regional Tobacco Treatment Center treat both addictions simultaneously or one after the other. There are no out of pocket costs to the participant. This includes both behavioral counseling provided by a licensed chemical dependency counselor/certified tobacco treatment specialist and 6 weeks of prescription and/or over the counter medication.
